Earth Day Cleanup April 22nd

SOLVE is excited to invite you to our statewide event this April, the Oregon Spring Cleanup, presented by Portland General Electric. For over fifty years, SOLVE has been supporting the efforts of community leaders around the state who are motivated to take care of their special place in Oregon. This event has its roots in the Spring Oregon Beach Cleanup (created in 1986) and SOLVE IT for Earth Day (started in 1990). Hoping the Oregon Spring Cleanup will become a family tradition for your loved ones to join with other Oregonians in taking care of our state.

Thank You For The Kind Words

Why didn't I use Du Fresne's earlier? I usually go with our Mini Cooper to one of the Mini specialists in this area. But they have a long wait time and are not always reasonably priced. Based on stellar reviews on Google, Carfax, and Nextdoor, I decided to go to Du Fresne's for a transmission fluid change. Not only did they change the transmission fluid, but they also performed a 70-point inspection of the car, vacuumed the interior, and cleaned the windows. And on top of that, they called me after completing the job that it took less work so the total cost was lower than estimated. I've never experienced this service and honesty before! I was so happy with their service that I brought our Jeep to inspect the steering wheel the next day. Preston

and his colleagues explain every step they take and only perform the service and work needed. They are honest and transparent, and I'll definitely recommend them to all my friends.

I'm always so happy that Marco works on my car. He always explains thing so thoroughly. I feel that my car is in excellent hands.

Larry Lek

They give me a very detailed breakdown on what they did on my vehicle as well as the pricing options and I found it all extremely fair and understandable.

No math is required to solve a Sudoku. You only need logic and patience. Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only appear once in a column or row in the larger grid. The difficulty on this puzzle is easy.
