What is the right to repair bill in Oregon?

Right to Repair laws require manufacturing companies to make the diagnostic tools, information, replacement parts and tools available to the user or a third party available at a fair price

Du Fresne's is great, I've been recommending them to all my friends. They were fast and friendly. I'd been told that I needed my rear brakes replaced by two separate oil change businesses. The breaks seemed OK, but I was concerned. Du Fresne's checked them out, said they were fine, rotated the tires, changed the oil and were very reasonably priced. Everyone was really nice. Thanks!

Quick to get me in, friendly, professional, and quick to get my car fixed. I loved that they called everyday to give me an update. First day they called to go over the bill and let me know the diagnosis, the second day was to let me know the fix was a success and go over payment and

pickup. The quote was exactly what I paid. This shop was recommended by my coworker and I really liked my experience here. I strongly recommend them!

My truck broke down and I brought it into Du Fresne's auto repair. They took it in and within a few days it was back in business. Great service and recommendations at a solid price.

HOW TO FIND THE WITCH'S CASTLE Portland, OR

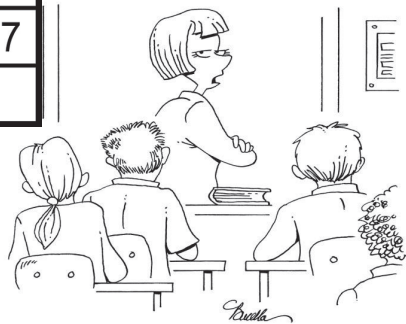

Do you like to hike but suffer from a little bit of *fomo* (fear of missing out)? Make your way to Northwest Portland for an outing in Forest Park that has a bit of everything. Start up Lower Macleay Trail along Balch Creek, the park's biggest year-round stream. Hike less than a mile through a verdant rainforest to arrive at Stone House (*imaginatively nicknamed the Witch's Castle*), where the ruins of an old building are alluringly grown over with moss and ferns. From there, you can loop back on a different route. Take Wildwood Trail north to Holman Lane and diversify your hike back with a stroll through the Willamette Heights Neighborhood. This loop is 2 miles long with 400 feet of elevation change. Hiking out and back on Lower Macleay Trail is just 1.8 miles round trip with 210 feet of elevation change.

Hiking Forest Heights

No math is required to solve a Sudoku. You only need logic and patience. Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only appear once in a column or row in the larger grid. The difficulty on this puzzle is easy.
