The **Astoria Warrenton Crab, Seafood and Wine Festival** is held annually on the last weekend of April, at the **Clatsop County Fair & Expo Center**. The Astoria-Warrenton Area Chamber of Commerce (AWACC) coordinates this event which, held annually since 1982, features around 150 vendors of hand-crafted arts, coastal cuisine, Oregon wine and local brews. The festival is a major fundraiser for not only the AWACC, but dozens of community organizations that participate in the event. The festival also draws traffic to hundreds of small businesses, from Crab Fest vendors and performers to local hotels, restaurants and shops in the surrounding region.

Thank You For The Kind Words

Robert Moore

DuFresne's is a refreshing "throwback" auto shop. They're that neighborhood auto shop your parents went to where the price was fair, the communication was honest and the work was timely and effective. We started going to DuFresne's a few years ago and have referred three family members and our neighbors also. We appreciate having DuFresne's in our neighborhood.

Marco (mechanic) and team were extremely professional and worked with my schedule to ensure timely drop off and pickup of my vehicle. Their pricing in comparison to other quotes I had received was very fair and explained

fully prior to any work being performed. Overall, very satisfied with their service and a happy new customer of theirs.

Heidi Wright

Preston, Bridgette and the Mechanic (didn't catch his name) were an amazing unit! I really appreciate the effort made by all three to make our first visit to the shop a great experience. The results were terrific! Our Subaru was clearly in good hands and she is running great! We sure appreciate finding such a quality automotive repair business after moving to the area recently. We are happily new customers now and going forward, thank you all very much. You are appreciated! Heidi & Justin Wright

No math is required to solve a Sudoku. You only need logic and patience. Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only appear once in a column or row in the larger grid. The difficulty on this puzzle is easy.
