Why Do People Hang May Baskets on Doors?

The popularity of May Day grew in the late 19th and early 20th centuries. The traditional gift was a small basket, often handmade, with a few flowers and trinkets or other homemade treats, sneakily hung on the front door handle. If you notice a loose door handle while you're hanging your basket, [fix it with this how-to guide!](#)

At one time, it was also common for boys to leave a May basket on the door of the girl they were especially smitten with and then run away. If the recipient opened the door to see her admirer running away, she could chase him down and give him a little kiss. It's sweet that this tradition was kept for such a long time because its innocence and charm speak of a much simpler time. It seems likely that if someone tried *this* tradition today there could be trespassing charges filed.

Thank You For The Kind Words

Very nice people. Quick service. I believe they zeroed in to the problem and repaired it, although too soon to know for sure. I will definitely go there again. So good to find an auto shop you can trust!

I've been going to DuFresne's for many years. This is by far the best auto service shop in the greater Portland area. You can always expect fair service and a wonderful friendly staff. I had my oil changed on Thursday and waited on my vehicle. I was provided with a chair to sit on outside and offered a heater to stay warm, since right now is policy due to covid. Many thanks to this shop. If you haven't tried DuFresne's for service now is the time. You will not be sorry.

I definitely found my new mechanic! A+ service, I came here after being high-balled at the dealership, my mechanic worked with me, found the solution to my overheating problem that the dealership didn't even see. I've been to a good number of mechanics over the years and it's hard to find one you can trust, I without a doubt trust DuFresne's

Lizzy Wright

They were friendly, communicative, and had my head gasket repair done in just a single day! Great experience!

No math is required to solve a Sudoku. You only need logic and patience. Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only appear once in a column or row in the larger grid. The difficulty on this puzzle is easy.

Would you take the chance?

The Association for Convenience and Fuel Retailing (representing mini marts) asked drivers how far they would drive to save 5 cents on gas. They found that 63 percent of us would drive five minutes out of our way to save 5 cents per gallon. Thirty-six percent of drivers would drive 10 minutes out of their way to save 5 cents a gallon.

According to the Seattle Times, it's a false economy. To break even on a 20 minute round-trip in a car that gets 30 miles per gallon, you'd have to buy at least 22 gallons of gas to make the 5 cent discount worthwhile. Plus, you spent 20 minutes of your time.

In the early 20th century, babies were mainly born at home. Jimmy Carter was the first president born in a hospital. His mother, Lillian G. Carter, worked as a nurse at the Wise Sanitarium in Georgia. There was a bed available at the sanitarium on the night of Oct. 1, 1942, so the future president was born there. President George H.W. Bush was born at home less than four months before on June 12, 1924. Every president after Carter was born in a hospital.

MOTORCYCLE SAFETY AWARENESS MONTH

May is Motorcycle Safety Awareness Month. With warmer weather, it's time to remind everyone to be on the alert and to share the road with motorcyclists.

Riders who have been cooped up all winter are excited to be out on the road again, but that shouldn't stop them from using caution.

Both motorcyclists and motorists need to be aware of their surroundings. Checking blind spots, mirrors and using turn signals are necessary when changing lanes and when passing.

Distracted driving has been on the rise, too. Distractions during driving could mean the difference between seeing a motorcyclist or not when preparing to change lanes. Don't let one text change anyone's life forever!

Riders need to take precautions as well. Take a defensive driving course, wear protective gear and keep your bike in its best working condition. Also, be aware of any road hazards and dangerous weather conditions.

Most of all, enjoy your ride and make it home again!
