## HISTORY OF THE ASTORIA COLUMN A monument to the West

The Astoria Column, located atop Coxcomb Hill, is a monument to the natural riches of the Pacific Northwest and the people who settled there. Building and maintaining the Column has been an endeavor requiring the efforts and resources of many over the years. It stands today as one of the finest tributes in America to those who built the West.

Wonderful to find an honest, professional, excellent auto mechanic right in our neighborhood! Took our 8 yr old Toyota RAV 4 in for an oil change. Computer also said I needed an air filter change. Change the oil & filter labor: \$15! Change the air filter : no charge! Any other mechanic shop would have charged min of 1hr labor at \$60. ++. These guys only fix what needs to be fixed, no padding of the bill, and sell amazing coffee to go! Best place in town to have your car repaired . Highly recommend their services!

#### Petros Belay

I needed my AC repaired in my Civic but didn't know where to go, so I decided to take a shot at this local shop I have never been to before and was pleasantly surprised

by their friendly customer service, good prices, and honesty when doing business. They also offered a loaner vehicle for a repair which only took a couple of hours and had coffee with some delightfully large pastries for sale inside as well. What more could you ask for? I'll certainly return to Du Fresne's for any repairs in the future.

#### Dave Haugen

They worked hard to find the root cause of a very pesky problem and accomplished the repair.

#### Matt Galvin

There's a reason they've been a part of the community for the 30+ years I've lived in this area. Preston and his team are trustworthy, quick, and do great work. Highly recommend!

No math is required to solve a Sudoku. You only need logic and patience. Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only appear once in a column or row in the larger grid. The difficulty on this puzzle is easy.
