Play in the Sand Day-August 11th-Win a FREE OIL CHANGE

The creator or founder of Play in the Sand Day is still unknown. Initially, it was making artistic sandcastles and soft sculptures out of sand and water, but now it embraces anything you can do in the sand. My favorite sport is driving my sand rail in the sand. I have posted a picture myself playing in the sand. Post a picture of you playing in the sand on our face book ([Du Fresne's Auto Service](#)) or send via e-mail to me at

TeesWorld23@gmail.com so I can post it for you and I will put your name in a drawing for a FREE OIL CHANGE.

Must send picture by August 31st, 2021

Just moved here from Arizona and found this place close to my residence. I was so surprised with the level of service and knowledge this team provides. I'm always worried about auto repair shops being a 23 year old with little to know knowledge of my car's mechanics. I felt like they did a great job completing my repairs and communicating their work with me. They have a customer

for life with me!

Tracy Lewis

Always forthright and helpful. Gave us the bad news that repairing daughters ancient car wouldn't be worth the money. Very communicative at each service appointment. No hard sell to upsell at maintenance appointments. Long term pleased customer.

Chris Loop

I've been bringing my vehicles in for years, they're extremely knowledgeable and professional. I'd absolutely recommend them for any repair work!

Don't let social media make you sick (or think you are) She had a headache, but it was really a brain tumor! He had a backache, but it was really a broken back! But hold on. Doctors say common symptoms usually turn out to have common causes, not profound ones. But those aren't the ones that make news. What makes these stories compelling is that we've all had an ache. Usually that headache is just tension. Mostly that backache will go away. Remember that the stories on social media rarely come with a complete medical history. If that lady with the headache suddenly lost her hearing, that is cause for concern, even though a headache generally is not. Always see your doctor if symptoms are persistent, unusual or dramatic. If you have symptoms related to an already-diagnosed health condition, call your doctor. But don't worry unnecessarily about common symptoms.

How to solve Sudoku puzzles

No math is required to solve a Sudoku. You only need logic and patience. Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only appear once in a column or row in the larger grid. The difficulty on this puzzle is easy.

Shrimp Alfredo

INGREDIENTS:

1 Stick Butter
2 Tbls Minced Garlic
1 Cup Heavy Whipping Cream
Low Carb People
1 oz Cream Cheese
Pepper to taste
1/2 Cup Parmesan Cheese
1 lb Shrimp
Optional: Garnish with Green Onions

Alfredo Noodles
Or Cauliflower for

Directions:

Mix butter, cream cheese and garlic in fry pan until all ingredients have melted. Add Shrimp and parmesan cheese. Cook 10-15 minutes. Pepper to taste. Sauce will be thin at first. Turn heat to simmer. Sauce will thicken. You may add more parmesan to sauce and garnish with some when serving. I like to add some green onions to the top.

You can use Alfredo noodles or cauliflower if you are counting carbs. I set my sauce aside for my dinner (I do low carb) and then mix remaining with the noodles for the rest of the family.

Canning Instructions

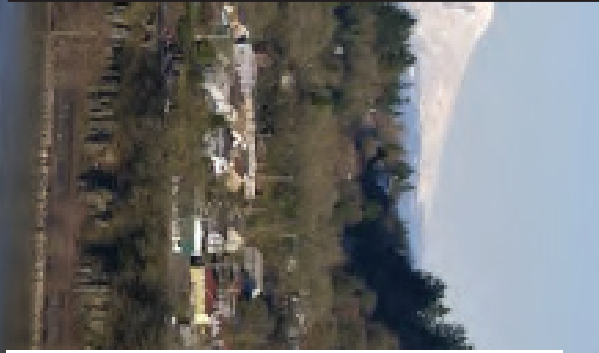

Tomato overflow? Can them for a taste of summer all year. You'll need: canning pot and rack, jar lifter tool, canning jars and lids, large bowl for ice bath, clean cloths or new roll of paper towels, lemon juice, salt, kettle of boiling water. Estimate about 3 large tomatoes per quart jar. Blanch and skin tomatoes. Boil water in large pot. Add a few tomatoes at a time and let them boil for a minute. Remove tomatoes. Place immediately bowl of ice water. When cool, skins slide off. Sterilize the jars and lids. Boil water in canning pot. Put jars in canning rack. Boil empty jars for 10 minutes. Remove jars (empty of water). Allow to dry. Now, boil lids for 10 minutes. Stuff the sterilized jars. Put two tablespoons of lemon juice from a bottle (not the fruit) in each jar. Pinch of salt. Cram tomatoes into jars. Cover tomatoes with boiling water from teapot. Leave a half inch headspace at top. Wipe edges of jars clean, place lids and rims on the jars. Put jars in canning rack. Boil the full jars. Put rack of jars in boiling kettle. Make sure cans are underwater and tops are covered by one-inch of water. Boil for 45 minutes. Add boiling water as needed to keep jars covered with water. Rest jars. Remove jars. Set aside to dry and cool for 12 to 24 hours. You may hear popping noises as seals form. Test lids. Do not turn the rim. After resting and cooling, press down on the middle of each lid. When sealed, there will be no give in the center. If unsealed, the lid will spring up. This jar is not safe for storage. Store in cool, dark place.
