Learn the stories of the brave souls
who successfully (and not) have
navigated the river.

Astoria, Oregon

COLUMBIA RIVER MARITIME MUSEUM

Informative, hands-on, and interactive exhibits explain why the Columbia River Bar is one of the world's most dangerous waterways. At this well-designed riverside museum, learn the stories of the brave souls who successfully (and not) have navigated the river in everything from dugout canoes to sailing ships, tugboats, and giant container ships. Special exhibits focus on severe weather, shipwrecks and fishing.

Thank You For The Kind Words

I brought my old honda in cause I was concerned about my brakes smelling like burnt rubber. The mechanic patiently checked and rechecked my brakes, test drove it, and checked other parts to figure it out. He ended up not finding anything. Ultimately, I was told it must be how I was "riding my brakes". Which was true haha. Anyway, I am really grateful for the mechanic's patience in listening to me and not ignoring my concerns. I was nervous how much the inspections would cost especially since they did so much diligence. At the end, they charged me for a regular brake inspection! So relieved for knowing nothing is wrong with my car and to be treated so fairly. Thank you so much for helping me out.

I have been with Dufresne's for 3 dec-

ades. They expertly took care of my 79 Honda Civic, My Toyota Four Runner, my '78 Toyota HiLux pickup, my wife's 2000 Subaru Forrester, her '92 Camaro, and my 03 Toyota Sequoia. I have never had any issues with their work. Preston and Marcos are very knowledgeable, and I'm sure I'm getting my money's worth with them. In short, wouldn't take my vehicles anywhere else.

We took my wife's 2007 Lexus RX 350 in because the "check engine light" was on and they helped us get everything fixed. We dropped the car off on a Friday morning and retrieved it Tuesday afternoon. Their communication was wonderful and did a fantastic job giving us options for fixing with the price associated to each option. My parents have gone to them for years and as long as we're in Portland

No math is required to solve a Sudoku. You only need logic and patience. Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only appear once in a column or row in the larger grid. The difficulty on this puzzle is easy.
